

Think NDRI

when a Liver is available for research.

C R I T I C A L N E E D

NDRI is currently working with a core group of researchers that are engaged in the study of various liver diseases and affects of drug compounds on a cellular level.

Please consider calling NDRI to place livers for research.

- DCD livers
- Transplant livers that didn't go for transplant
- Non-transplant livers

Please call NDRI early in the allocation process as a back up to transplant. Research projects will be immediately identified. Recovery and packaging instructions will be ready pending acceptance.
